SUMMARY

Software Developer experienced in building full-stack web applications using JavaScript, React.js, Node.js, Express.js, and MongoDB (MERN). Developed secure authentication systems, REST APIs, payment integrations, and AI-powered applications deployed on cloud platforms. Solved 500+ DSA problems in C++ with strong foundations in OOP, DBMS, OS, and CN.

EDUCATION

Institute of Engineering and Technology DAVV, BE in Electronics Sept 2022 – May 2026

- CGPA: 7.5/10
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

TECHNOLOGIES

Languages: C++, JavaScript, TypeScript, Python, SQL

Frontend: React.js, Redux, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture

Databases & Tools: MongoDB, Git, GitHub, Cloudinary, Vercel, Render, Postman

EXPERIENCE

SDE Intern, Ideal Minds – Indore, MP June 2025 – July 2025

- Developed and integrated 15+ RESTful APIs for the Steepi Fitness platform using Node.js and Express.js.
- Built 10+ reusable React.js components, improving code maintainability and accelerating feature development.
- Collaborated on feature implementation, API integration and testing within an agile development environment.

PROJECTS

Learning Management System | Live github repo

- Built a full-stack EdTech platform enabling course creation, enrollment, video-based learning, and instructor-led content management workflows.
- Implemented JWT authentication, OTP-based email verification, password recovery, role-based access control for 3 user roles, and Razorpay payment integration for secure transactions.
- Designed and developed 25+ RESTful APIs using Node.js, Express.js, and MongoDB to support student, instructor, and administrator operations.

Ai News Credibility Analyzer | Live github repo

- Built and deployed an AI-powered news credibility analyzer generating credibility assessments in 5 seconds.
- Developed secure backend services with request validation, rate limiting, CORS, and Helmet middleware, supporting 100+ API requests during testing.
- Integrated OpenRouter APIs and deployed the full-stack application using Vercel and Render for scalable access.

ACHIEVEMENTS

- Solved 500+ DSA problems on LeetCode and Maintained 500+ GitHub contributions.
- Finalist in Smart India Hackathon (SIH), contributing to innovative solutions for real-world problem statements.
- Head of Events, Pratyaksh Drama Society, leading event planning and execution for large-scale activities.
- Captain of the State Basketball Team, demonstrating leadership, teamwork, and competitive excellence.
